Subj: Letter of support for Competitive Edge Motocross Park

From: David Mettler (motocross rider and supporter)

To whom it may concern,

I am writing this letter in support of Competitive Edge Motocross Park, located in Hesperia, CA.

This track has been a major contribution to the local (high desert) kids and adults who ride motocross, as it gives these riders a place to call home other than a wooden structure. For the younger kids who need guidance and a place to be with a purpose, other than "hanging out at the mall", or just "running the streets", they have somewhere they can go and be part of something bigger than just where they will get their next fast food meal!!

The staff at Competitive edge fosters this sport and those who attend by encouragement and self sacrifice of long hours working the track to make sure its safe for those involved, along with keeping the track in such a state that it is usable for many levels of riders. I know that my kids (who also work at this track) are better young men because of it, and that is mainly because they are treated like real people and not just employees. How many times have you heard your kids say " I like my job"?

Motocross is a sport that brings many families and friends together in a place where they can compete, but also gain friends who would do anything to assist in times of need. This motocross track is a very needed thing in Hesperia, which should be obvious by all of the tracks spread across southern California. Its not just a place to earn money for the local economy, but somewhere people can go and unwind and forget about the weekly grind.

It would be a huge loss to the high desert if this track wasnt located here in Hesperia.

Thank you for taking the time to read this letter.

Respectfully,

David Mettler
