Present Land Use/Zoning/General Plan Designation:

State Park and Natural Preserve designations

Project Description:

The General Plan contains a comprehensive and cohesive set of park-wide and location-specific goals and guidelines for the long-term direction of the Park. Several park management zones are identified in the plan, encompassing the entire Park and providing detailed direction tailored to each of the use and condition characteristics at the Park. The four zones - Core Habitat, Natural Open Space, Cultural/Historic, and Recreation/Operations Zones - provide for high-quality park experiences for visitors while enhancing and preserving the natural and cultural features that make the Park a unique destination. A number of Park improvements are identified in the General Plan's goals and guidelines, including the development of an equestrian campground at Reagan Ranch, establishment of a cultural and historic zone at Sepulveda Adobe and White Oak Farm, development of more centralized visitor use facilities, creation of a new Natural Preserve in Malibu Canyon, and a host of natural and cultural resource management measures for the Park.
